

Off-Road Driving Information

Please do not drive off-road in this van.

It has a low bottom clearance. In addition, the exterior paint will scratch easily.

Beware of driving near bushes and trees.

Our Collision Damage Waiver (CDW) does **NOT** cover you if you put scratches on our van from bushes or trees etc. A full buff & polish can be expensive for you! Damage to the undercarriage is not covered when driving off-road.

No driving on beaches, dunes, riverbeds, logging roads, forest trails, etc.

Driving on unpaved roads (excluding county and state maintained roads), dirt roads, restricted areas and 'off road' areas is not allowed. Renter is liable for all damages to vehicle, tires, towing charges and other expenses as a result of a breakdown, collision, or other, associated with operating Lost Campers vehicles in these areas. Lost Campers' insurance protection will also be null and void.

**In addition: This van has very big blind spots in the side view mirrors. Adjust these mirrors to suit each driver, and take caution changing lanes.
